Aérienne du Canada

NEWS RELEASE “We are Evolving”

We're excited to revitalize our commitment to innovation, collaboration, and inclusion by transitioning to a new brand: **Aerial Evolution Association of Canada / Association pour l'Évolution Aérienne du Canada.**

Our renewed mission reflects an evolution in our industry and how this association will continue to make an impact in the aerial industry within Canada and Internationally.

“To promote, empower, and help evolve Canada’s Aerial community. We are on a mission to inspire and nurture the industry through collaboration, education, and awareness. “

We know that growth in Canada's aerial sector has always been driven by innovative people seeking creative solutions to solve problems and expand human potential. Our community has evolved from its early origins of Defence-driven ‘unmanned aerial vehicles’ into a rapidly growing ecosystem of robotic and remotely piloted vehicles enabling us to explore lands, waterways, skies, and space to gather new data, insights, and perspectives.

A group of visionaries formed a national industry association to promote Canada’s interests in this sector in 2003. Our continued focus on the aerial industry in Canada builds on top of the long history and successes that this association has demonstrated since 2003.

Our membership, activities, and influence have grown through almost 20 years of collaboration amongst volunteer committees. We’ve organized yearly conferences, national student competitions, working groups to provide industry feedback to regulators and raising awareness of the strengths and potential of Canadians participating in the sector.

We look forward to shaping a more inclusive future where everyone can enjoy the social, environmental & economic benefits of innovative, evolving aerial technologies!

On behalf of the leadership team

Michael H Cohen

Michael H Cohen
Association Chair

The Aerial Evolution Association of Canada acknowledges that our work spans many traditional territories of Indigenous Peoples across the nation. We are grateful for the Traditional Knowledge Keepers, those who have gone before us & youth from all Nations who inspire us to pave a shared path towards Reconciliation.
